 - Guidewire Associate Certification – InsuranceSuite
 - Red Hat Certified System Administrator (RHCSA)
-

Professional Experience

Guidewire Configuration Developer – BillingCenter

Capgemini, Chennai | Dec 2022 – Present

Project: Travelers Insurance – BillingCenter Implementation

Duration: 2.8 Years

- Developed and configured billing functionalities in Guidewire BillingCenter for multiple insurance clients, ensuring business requirements were met efficiently.
- Implemented enhancements and customizations using Gosu scripting to support new billing processes and improve user experience.
- Investigated and resolved defects arising from data and configuration migrations, maintaining application stability and business continuity.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, retrospectives, and code reviews, ensuring timely and quality deliverables.
- Worked on version upgrades from Elysian to Mammoth, ensuring application compatibility, resolving deprecated code, and implementing performance improvements.
- Collaborated closely with Business Analysts to understand requirements and with QA teams for effective test case validation and defect resolution.
- Provided pre-production support, performing root cause analysis and quick resolutions to maintain system stability.

DevOps Engineer cum Linux Instructor

Winways Infomatics Pvt Ltd, Madurai | Nov 2019 – Apr 2021

Duration: 1.6 Years

- Conducted training sessions for RHCSA modules, preparing students for certification exams with practical lab guidance and concept clarity.
- Maintained Linux servers including installations, upgrades, patching, user management, and shell scripting for automation tasks.
- Provided DevOps support in automating backups, monitoring server health, and deploying updates to improve system reliability.
- Offered technical support for hardware and software troubleshooting within the organization and training environment.
- Created detailed documentation and knowledge base articles for frequently faced technical issues and standard operating procedures.

Education

Master of Computer Application (MCA)

Thiagarajar College of Engineering, Madurai
